\*\*It is very important for your DJ to know what kind of music you expect at your reception. Please keep in mind that your guests are going to expect some of the traditional wedding songs. Although these songs may seem overplayed, they get people on the dance floor and helps make for some great pictures. It is our recommendation that you do not limit your DJ overly much. We are looking for a list of "must play" songs and to get an idea of the music your friends and family will enjoy. Please also take a look at our "Best Party Songs" and highlight the songs you want to hear at your reception. You can list the additional songs you want to hear below:
